Philosophy of School Discipline

Quality schools are active in their commitment to a philosophy of student discipline that is fair, consistent, and effective. The purpose of these procedures is to promote the development of student citizenship and learning by maintaining a safe and educationally conducive environment for students, faculty and members of the community. To cultivate such a discipline program in Maine, a committee of parents, students, teachers, administrators, and board members developed comprehensive discipline procedures in 1986 that established expectations for student behavior, as well as consequences for misbehavior. District 207 Discipline Procedures are distributed in booklet form to students and their parents, teachers, department chairs/lead teachers, counselors, deans, and others, who then can function as a team to promote a wholesome, safe, and secure school climate.

While most students do exercise self-discipline and self-control, occasionally some students violate the rules. Students, parents, and school personnel should take a few minutes to familiarize themselves with the regulations of this District 207 Discipline Procedures booklet. Designed not only to inform and guide, written discipline procedures also promote the idea that students must take responsibility for their own behavior. Effective discipline is possible only when students, parents, and school personnel know, understand, and support the school rules and regulations. Correspondingly, they should also understand and support the consequences of misbehavior. Only with effective discipline can students have the maximum opportunity to develop emotionally, socially, and intellectually.

Discipline Procedures was first published in 1986 in compliance with a provision of the Illinois Educational Reform Act of 1985 which required school districts to organize a parent/teacher advisory committee to develop a written policy on student discipline with the school board. These procedures have been reviewed and updated annually, as needed or in response to changes in state law. All students are expected to be familiar with the information contained in this booklet of discipline procedures.

The policy is reviewed annually by a committee of administrators, students, teachers, and parents. Parents, students, and faculty members who have concerns or recommendations regarding these policies or procedures should contact the Assistant Principal for Students for their respective school. District 207 will notify students, student's parents or legal guardian of any changes in these disciplinary procedures.

It is the policy of District 207 not to discriminate on the basis of sex, sexual orientation, color, physical handicap, race, nationality, residence, age, religion, or religious affiliations. (Revise to new policy)

The Title IX and Section 504 coordinator is the Assistant Superintendent for General Administration, who may be contacted at (847) 692-8007.

Due Process

Maine Township High School District 207 will provide due process in all matters of significant student discipline, such as student suspensions and expulsions. The nature of due process will vary with the severity of the violation and the proposed discipline. However, the essential elements of due process are notice of the misconduct with which the student is charged and an opportunity for the student to respond. Where appropriate and legally permissible, the District will strive to maintain the anonymity of student witnesses.

While implementing due process in District 207, the administrator authorized to suspend will confer with the student and will investigate the matter. During this conference, the administrator will inform the student of the violation, state the reasons for the proposed disciplinary action and give the student the opportunity to respond. If the administrator suspends the student, the administrator will make a reasonable attempt to notify the student's parent or legal guardian by telephone and will send written notice to the student's parent(s) or legal guardian.

OUT-OF-SCHOOL SUSPENSIONS

In cases where out-of-school suspension is enacted, the responsible administrator will provide written notice to the student's parent(s) or legal guardian. This notice will include:

1. A statement of the reason for the suspension.
2. Specific violations as described in the Discipline Procedures found on the district website.
3. The inclusive dates of the suspension.
4. A statement of the rationale for the length of the suspension.
5. For suspensions of 1-3 days, the notice will include a determination that the student's continued presence in school would pose a threat to school safety or a disruption to other students' learning opportunities.
6. For suspensions of 4 or more days, the notice will include (a) a description of other interventions attempted, (b) a determination that there are no other appropriate and available interventions, and (c) a determination that the student's continued presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school.
7. For suspensions of 5 or more days, the notice will include a determination of any support services that will be available to the student during the suspension period.
8. A statement indicating that a suspension will be limited to a maximum of five (5) school days by the Dean and may be extended to up to ten (10) school days by the Executive Committee. Only the Board of Education can extend a suspension beyond ten (10) school days.
9. A request for an appeal conference concerning a suspension shall be made, in writing, within five school days to the Assistant Principal for Students or Principal designee. This appeal conference, as well as any subsequent conference, may include an adult advocate.
10. An explanation of the rights and procedures required for requesting a formal hearing before the

Board of Education or its hearing officer, including the final date by which the hearing may be requested.

A request for a formal hearing concerning a suspension shall be made in writing within five school days after the initial date of suspension or the date of the assistant principal or principal conference.

The suspension will remain in effect pending the resolution of a conference/formal hearing. If the conference/formal hearing determines that the suspension is inappropriate, the suspension will be reversed and the student will not be penalized for school days absent.

Students subject to out-of-school suspensions will have an opportunity to make-up work for equivalent academic credit.

EXPULSIONS

The student or the student's parent(s) or legal guardian may request a formal hearing when the student is being referred by the Principal to the Board of Education for expulsion from school.

When a student is referred by the Principal to the Board of Education for expulsion from school, the Principal will send written notice to the parents to include:

1. The purpose of the formal hearing.
2. A request that the student and student's parent or legal guardian attend.
3. The date, time, and place of the hearing; the student's right to be represented, at the student's own expense, by an advocate of the student's own choice including legal counsel.
4. The student's right to have evidence presented on the student's behalf; the right to review the student's personal school records; the right to present witnesses.
5. The name and title of the hearing officer.

At its next regularly-scheduled meeting, the Board will review the information presented. Immediately following the Board review, the Board will send written notice of its decision to the student's parent(s) or legal guardian. The Board notice will include:

1. A statement of the reason for the expulsion.
2. Specific violations as described in the Discipline Procedures found on the district website.
3. The inclusive dates of the expulsion.
4. A statement of the rationale for the length of the expulsion.
5. A description of other interventions attempted.
6. A determination that there are no other appropriate and available interventions.
7. A determination that the student's continued presence in school would either (i) pose a threat to the safety of other students, staff, or members of the school community or (ii) substantially disrupt, impede, or interfere with the operation of the school.
8. The specific reasons why removing the student from the learning environment is in the best interest of the school.

Any suspension or expulsion from school includes all school activities and a prohibition from being present on school grounds or at school activities.

Expectations of Student Behavior

Acceptable student behavior is an important part of a well-designed and effectively managed educational program. The information in Sections I and II establishes District 207 expectations for acceptable student behavior, outlines the alternatives for responding to violations and misbehavior, and establishes disciplinary consequences for improper student conduct.

Communication between school and home is essential to promoting good student behavior. Oftentimes, faculty members will call a student's parent(s) or legal guardian to discuss their expectations for student behavior. Student's parent(s) or legal guardian(s) are also encouraged to call teachers, counselors, and other school personnel.

Students are subject to suspension, expulsion or other discipline for misconduct as described in these Discipline Procedures that occurs:

a) during school time, b) on school grounds or at any school supervised or school sponsored activity, , c) during off-campus activities where the violation is reasonably related to school matters and d) in places adjacent to school grounds designated and publicized by the building principals as having a reasonable relationship to school matters. Also, school officials may investigate and assign consequences for incidents occurring in other circumstances reasonably related to student health, safety, and opportunity to fully engage in school and school-sponsored activities, such as traveling to and from school and school-sponsored activities and participation in social networking websites (Facebook, email etc). Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment, suspension and/or expulsion.

Section I
General Expectations
Absenteeism

All students are expected to be in classes, study halls, or assigned areas each period of the school day.

Under the Illinois School Code, absences may only be authorized for the following reasons:

1. Student illness
2. Death in the immediate family
3. Observance of a religious holiday
4. Family emergency
5. Situations beyond the control of the student as determined by the administration, such as hospitalization or serious illness, for which the school receives timely, acceptable documentation.
6. Circumstances which cause reasonable concern to the parent for the safety or health of the student.

A parent/legal guardian is responsible for informing the attendance office of their student's absence within 24 hours. Voicemail/recording is available 24 hours. Excessive absences that are non-school related may require further documentation as reasonably requested and approved by the school.

A. Excessive Authorized Absences from Class

Students are expected to be in school in order to receive instruction in their classes. Maine Township High School District 207 believes that regular class attendance fosters successful academic performance and the full development of punctuality, self-discipline, and individual responsibility.

District 207 limits the number of class absences, without formal consequences, to seven (7) per semester. Once a student has accumulated eight (8) absences in a semester, he/she will be considered excessively absent. Strict formal consequences, including but not limited to withdrawal from the course and loss of credit, may be imposed on students deemed as excessively absence from a class.

Field trips, school sponsored activities, and other school-related absences do not count towards excessive absences. However, participation in such activities may be limited based on a student's attendance record.

Upon reaching four (4) absences in a semester, the following will occur:

- a letter will be sent home notifying the student's parent(s) or legal guardian of the absences.
- notification will be sent to the student's counselor, dean, nurse, teacher(s) and attendance review board coordinator.

Upon reaching six (6) absences in a semester, the following will occur:

- the student and parent/guardian will be notified and may be required to attend a meeting with relevant school personnel which may include but not limited to the case coordinator, counselor, dean, nurse, teacher(s) and attendance review board coordinator. At this time, the following will occur:

1. discuss the reason(s) for the absences and any extenuating circumstances that may serve as contributing factors to the absences.
2. develop an intervention plan to improve attendance and prevent the student's absences from becoming excessive.
3. set up an attendance contract with the student and his/her parents to limit future absences.
4. discuss the possible consequences that could be incurred if the absences become excessive, including but not limited to the loss of privileges, loss of credit for make-up work, and/or withdrawal from the course without credit and assigned a failing grade.

Upon reaching eight (8) or more absences in a semester, the attendance review board coordinator will meet with the building Executive Committee which will determine the extent of the consequences to be imposed that may include, but not limited to, withdrawal from the course with a failing grade and loss of credit.

B. Unauthorized Absenteeism from Class

When a student is absent without authorization from class, the following will occur as a result of the first and subsequent unauthorized absences:

1st Violation: The teacher will confer with the student, may assign a detention, and will call the student's parent(s) or legal guardian and will process a truancy form notifying both the student's parent(s) or legal guardian and the counselor.

2nd Violation: The teacher will confer with the student, may assign a detention, and will process the truancy form notifying both the student's parent(s) or legal guardian and the counselor. The counselor and department chair/dean will work cooperatively to confer with the student to develop an attendance contract, place the student on probation, and inform the parent(s) or legal guardian of the unauthorized absences and probation in the class.

3rd Violation: The teacher will process the truancy form. The teacher/dean will notify the student's parent(s) or legal guardian. The dean will confer with the student and will review the remediation contract. If the contract has been violated, the dean or Executive Committee may remove the student from the class and reassign the student to a supervised study area for the remainder of the semester. When removal from class occurs, a failing (F) grade will be assigned to the student for the semester. A letter will be sent by the dean to the student's parent(s) or legal guardian informing them of the disciplinary action. **If a student re-enrolls in the same course/department second semester, the student will re-enter on probationary status.**

C. Unauthorized Absenteeism from a Study Hall or an Assigned Area:

When a student is absent from study hall or from an assigned area without authorization, the following will occur as a result of the first and subsequent unauthorized absences:

1st Violation: The supervisor will report the absence to the dean who will confer with the student and will assign two detentions.

2nd Violation: The dean will confer with the student, will notify the counselor, and will assign either one REA or five detentions. If the REA is assigned, the dean will send a letter to the student's parent(s) or legal guardian informing them of the disciplinary action.

3rd Violation: The dean will confer with the student and may suspend the student from school for up to three school days. If a suspension is enacted, the dean will make a reasonable attempt to notify the student's parent or legal guardian by telephone and will send a letter to the student's parent(s) or legal guardian informing them of the disciplinary action.

4th and Subsequent Violations: The dean will confer with the student. Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, REA, suspension and/or expulsion. The dean will make a reasonable attempt to notify the student's parent(s) or legal guardian by telephone and will send a letter to the student's parent(s) or legal guardian informing them of the disciplinary action.

Tardiness to Class:

Since teachers and students need to make full use of instructional time, students must report to class on time.

An unauthorized tardy occurs when a student is tardy with no call from the student's parent or legal guardian and/or the reason for tardiness does not fall within the State Guidelines for an authorized tardy. If a student is tardy unauthorized to school 20 minutes or more into the period, the tardy will be recorded in the attendance office and in the teacher's gradebook and counted as an unauthorized absence from class.

If the student is unauthorized tardy to class, **the teacher shall admit the student to class**, record the tardy in the student information system (SIS) and the following will occur as a result of the first and subsequent unauthorized tardiness to class:

1st and 2nd Violation: The teacher will confer with the student and warn the student that subsequent tardiness to class will result in consequences.

3rd and 4th Violation: The teacher will confer with the student, will assign one detention, and Aspen will generate a phone call to notify the student's parent or guardian of the tardiness.

5th and Subsequent Violations: The teacher will refer the matter to the dean. The dean or designee will confer with the student and assign consequences and may refer the matter to a Problem Solving Team for further action.

Unauthorized Departure from School:

Students are expected to remain in school or on the school campus during the school day unless they have proper authorization.

If a student is found to be in violation of this regulation the dean will confer with the student and determine appropriate consequences.

Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment and suspension. Repeat violations or engagement in behavior that is inappropriate, unsafe, or in violation of additional school policies, may result in suspension and/or revocation of parking privileges without refund.

Disruptive Classroom Behavior:

Students are expected to respect teachers as well as the educational opportunities of themselves and fellow classmates. As such, students must comply with teachers' instructional and classroom procedures.

Students learn best in an orderly classroom. Students who are disruptive or insubordinate may be dismissed from the classroom by the teacher and sent to a department chair/dean for the remainder of the class period.

When a student is removed from class, the teacher will make a reasonable attempt to contact the student's parent(s) or legal guardian and refer the student to the department chair/ dean who will confer with the student and assign appropriate discipline. The dean may place the student on probation for the remainder of the course. A letter will be sent to the parent(s) or legal guardian informing them of the disciplinary action. A student on probation first semester will remain on probation second semester in the same course/department.

If the student continues to misbehave or disrupt the class, the teacher will make a reasonable attempt to contact the student's parent(s) or legal guardian and refer the student to the dean. The dean will confer with the student, assign appropriate discipline, and may refer this matter to the Executive Committee for further action. This action may include but not be limited to, removal from class, assignment of a failing grade, and reassignment to a supervised study area. If the student re-enrolls in the same course/department second semester, the student will re-enter on probationary status.

Driving and Parking Violations:

Any student who drives a vehicle to school and parks on campus must register that vehicle with the school, pay the parking fee, and then have the sticker or placard displayed according to school policy, and park only in the designated space. Drivers must drive safely and comply with driving regulations as prescribed by the Secretary of State in the booklet "Rules of the Road" as well as with local and school traffic regulations. Eligibility for driving and parking at school is determined by the school administration and is related to the availability of parking spaces at the campus. Any vehicles in violation of the preceding parking regulations are subject to ticketing and/or towing at the owner's expense and risk. Violation of parking regulations or unsafe driving may lead to removal and revocation of parking stickers without refund of the sticker fee as well as denial of future parking privileges. Vehicles in parking lots or on other school property are subject to search in accordance with the terms of Section 10-22.6 of the Illinois School Code.

If a student is found to be in violation of driving or parking regulations the following will occur as a result of the first and subsequent violations:

1st Violation: The dean may have the car ticketed and/or towed without conferring with the student for a parking violation and the student will be responsible for the expense and risk of such action. The dean will confer with the student and a letter

will be sent by the dean to the student's parent(s) or legal guardian informing them of the disciplinary action. The dean may suspend the student's driving privileges on campus and may place the student on driving probation on the school campus for the remainder of the school year. The dean may remove the student's driving privileges on campus for the remainder of the current school year for a flagrant violation that threatens the safety and welfare of any individual. The dean may suspend the student for up to five school days and may refer the student to the Executive Committee and/or may refer the student to the police for further action depending on the severity of the violation.

2nd and Subsequent Violations: The dean may tow any car without conferring with the student for a parking violation and the student will be responsible for the expense and risk of such action. The dean will confer with the student and a letter will be sent by the dean to the student's parent(s) or legal guardian informing them of the disciplinary action. The dean will suspend the student's driving privilege on campus for 30 calendar days and may place the student on driving probation on campus for the remainder of the semester or for the school year. The dean may remove the student's driving privileges on campus for the remainder of the school year for a flagrant or repeated violation that threatens the safety and welfare of any individual. The dean may suspend the student for up to five school days and may refer the student to the Executive Committee and/or may refer the student to the police for further action depending on the severity of the violation.

Cheating and Plagiarism:

Students are expected to complete all tests and assignments with academic integrity. Students will not collaborate on tests or other assignments unless directed to by the teacher.

If a student engaged in cheating or plagiarism, the following will occur as a result of the first and subsequent violations:

1st Violation: The student's teacher will assign a zero grade on the test or assignment and will make a reasonable attempt to call the student's parent or legal guardian. The teacher shall notify the counselor and may refer the student to the dean. Upon referral the dean may place the student on probation in that class for the remainder of the course. The dean may suspend the student and may refer the student to the Executive Committee depending on the severity of the infraction. If a student is placed on class probation, a letter will be sent by the dean to the student's parent(s) or legal guardian informing them of the probation and/or suspension.

2nd Violation: If a second violation occurs in the same class, the teacher will refer the matter to the dean. The dean will confer with the student. The dean may suspend the student and refer the matter to the Executive Committee for further action. Such action may include but not be limited to removal from the class, assignment of a failing grade, and reassignment to a supervised study area. A letter will be sent by the dean to the student's parent(s) or legal guardian informing them of the decision.

Forgery/Altering Information:

Information submitted to the school shall be submitted honestly and without alteration. This includes information on school forms and documents, as well as information submitted via telephone and other forms of electronic transfer. Impersonating a parent, guardian, school official, or others will constitute a violation of this rule.

The dean will confer with the student. Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment, suspension and/or expulsion. The dean will make a reasonable attempt to contact and will send a letter to the student's parent (s) or legal guardian informing them of the disciplinary action.. The dean may refer the matter to the Executive Committee. The Executive Committee may extend the suspension to a maximum of ten school days and a student may be dropped from the class with a failing grade and be reassigned to a supervised study.

Games of Chance:

Games of chance are prohibited. Gambling paraphernalia, including but not limited to such items as cards and dice, will be confiscated and delivered to the dean.

Students who engage in games of chance may be referred to the dean. Upon referral, the dean will confer with the student and may assign detentions, reassignment, or suspensions. Should the reassignment or suspension be necessary, the dean will send a letter to the student's parent(s) or legal guardian informing them of the disciplinary action. In certain instances, the dean may refer the matter to the Executive Committee for further action and may also contact the police.

Identification (I.D.) Cards

The board requires Identification Cards for all students and staff.

IDENTIFICATION (I.D.) CARDS: The student is expected to carry his/her current student I.D. card while at school or while attending a school related activity and is expected to present it to a staff member upon request.

Refusal to present an I.D. as requested may be considered insubordination and may result in suspension. In addition, no student shall possess a school I.D other than their own I.D for the current school year and shall not use any I.D. other than their own current school I.D. to gain access to any area of the school or perform any transaction in the cafeteria or elsewhere in the school. Upon review, the dean may assign detentions, reassignment, or suspend the student from school.

Inappropriate Displays of Affection:

Students are expected to exercise restraint in displaying affection toward one another.

When a staff member observes students who are not exercising restraint in displaying affection, the staff member will request the students to stop. Students are expected to abide by the request of the staff member. Failure to comply with a request may result in referral to the dean. Upon referral, the dean will confer with the students, may contact the student's parents or legal guardians, and may initiate further disciplinary action.

Inappropriate Dress:

Students are prohibited from dressing in a manner that may endanger the safety and welfare of any student or staff member, disrupt the school environment, or conflict with acceptable community standards. Wearing of or possessing hats, head covering (excluding for medical or religious reasons), chains, bandanas, headbands, hoods, and outerwear such as jackets and overcoats is prohibited during the school day within the building. To adapt to changes in the meaning associated with clothing and symbols over time, the school reserves the right to make case-by-case determinations of the appropriateness of student clothing and accessories.

Students wearing hats, head covering, and/or outerwear to school must place such items in their locker immediately upon arrival at school and not remove them until they leave the building at the end of their school day. Students are expected to wear opaque clothing that covers them from shoulder to approximately mid-thigh. For example, students shall not wear halter tops, garments with thin straps, or strapless garments. Garments that are "see-through," cut low, or exposes one's midriff are not acceptable. Skirts and shorts should not be shorter than approximately mid-thigh. Undergarments must not be visible. All pants must fit around the waist and must be properly fastened.

Clothing which displays obscenities, gang affiliation or cult symbols, sexual connotations, drugs, alcohol or violence is prohibited. The wearing of any clothing or accessory that poses a threat and/or hazard to the safety of the student, to others or to property is also prohibited. Shoes which do not mar or damage floors must be worn. Students who are inappropriately dressed for school will be referred by the staff to the dean. The dean will confer with the student and, if necessary, will contact the student's parent(s) or legal guardian to arrange appropriate dress for the student.

Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment, suspension and/or expulsion.

Insubordination:

Students must respect the authority of staff members. Insubordination usually is manifested by blatant disobedience, outright refusal to respond to a direction or directive, or refusal to respond to reasonable requests by staff members including requests for conferences with counselors, deans, or department chairs. When a student is insubordinate, the teacher may assign the student detentions.

Any staff member may refer an insubordinate student to the dean who will confer with the student. Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment, suspension and/or expulsion.

Misconduct-- General:

Students are expected to engage in proper behavior at school and school-sponsored activities. Behavior that is antisocial, disrespectful, illegal, - general wrongdoing- with the potential to disrupt the educational environment or may be dangerous to other students, faculty, or staff is prohibited.

Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment, suspension and/or expulsion.

Misconduct--in Common Areas:

Students are expected to behave in an appropriate manner in common areas of the school. Common areas include but are not limited to, the cafeteria, hallways, study halls, resource areas, restrooms, locker rooms, parking lots, etc. Students are responsible for cleaning up after themselves.

Consequences to these infractions may include, but are not limited to, loss of privileges, detentions, reassignment, suspension and/or expulsion.

This committee, working in consultation with the Superintendent, will determine the frequency and scope of all searches. Each Building Level Search Committee will be responsible for reviewing the procedures, as outlined in the protocol, prior to initiating a canine search on school grounds. The building Principal will determine the date and time of a search, which may include searches conducted after school hours when no students are present.

1. The Principal will convene the Building Level Search Committee to initiate the canine search. He/she is responsible for declaring and securing the search area(s).
2. For canine searches conducted during regular school hours, the bell system will be turned off and students will remain secured in their classrooms while continuing to be engaged in the instructional process. Classroom instructors will ensure students are not allowed to exit the classrooms or enter the hallways during the search. The scope of the canine searches will be limited to school grounds. No canines will have direct contact with students for the purpose of conducting a search for illegal substances. It is expected that all canine searches would be completed within one class period to avoid disruption to the educational process.

4. **ALL TEACHING STAFF** will do the following to assist in commencing a canine search:
 - Remain outside their classroom until students arrive and the halls are clear.
 - Take attendance once the search is initiated and the search area(s) is secured.
 - Maintain order in the classrooms during the search and prevent students from leaving the secured classrooms until the search has been completed.
5. **ALL NON-TEACHING STAFF** will monitor the hallways and escort visitors to the appropriate site to sign in and to attend to their business.
6. **ALL BUILDING LEVEL SEARCH COMMITTEE MEMBERS** including all police officers/handlers and their canines will report to a designated entrance for staging and to receive final instructions. Each search team will consist of a police officer/handler, a school administrator and a canine. Each search team will be responsible for searching a specific area of the school grounds.
7. If a canine alerts, indicating the scent of an illegal substance on school grounds, a school administrator will conduct a search for contraband.
8. If contraband is found, the parents of the student believed to be in possession of the contraband will be contacted and all District 207 policies and procedures related to an alleged violation of the illegal substances policy would be followed. If contraband is not found, the parents will be informed of the actions that occurred during the search and subsequent alert.
9. Once the canine search has been completed, the Principal will announce the “all clear” signal and the bell system will resume as regularly scheduled.

The Code defines the specific rules for student participation in extracurricular activities and guidelines and procedures to be followed for violations, which may also be applied to student behaviors as defined in Section II of the District 207 Discipline Procedures.

PROHIBITED CONDUCT

Prohibited conduct is any possession, delivery or use of a prohibited substance or look-alikes and any criminal activity, including involvement with gang-related activities and/or secret organizations.

DEFINITION OF TERMS

Prohibited substances are:

- All alcohol, regardless of vessel of travel.
- Tobacco
- All “controlled substances” such as Cannabis, Ecstasy any and all “controlled substances” as defined in Illinois law (see 20ILCS 570/102, Section 102(f)) except when prescribed for a student by a licensed physician.
- Any drug paraphernalia, as defined in Illinois law (see for example 720 ILCS 600/2 Sec. 2(d)) such as but not limited to pipes, one-hitters, rolling papers or any device or item that contains residue of an illegal substance.
- Any anabolic steroid.
- Any substance used to achieve an altered mental state or “high” or artificially boost performance.

Use: any student who has consumed or used any amount of tobacco, a controlled substance, marijuana, alcohol or intoxicants will be considered under the influence.

Possession: any student having knowledge of, and any control over, an item. Control includes, but is not limited to, having access to an item in a school locker, personal effects, a vehicle, or other place where the item is located. It is not necessary that a student intended to control the item. A student may acquire knowledge of an item visually, by being told about the item, or through other sensory perception. A student's knowledge will be determined based on the surrounding circumstances, not just the student's statements. For example, "forgetting" that an item is in one's locker, personal effects or vehicle does not constitute a lack of knowledge. A student also acquires knowledge when that student attends a party or event at which minors are in possession of or consuming a prohibited substance. A student who is in attendance at a party where minors are in possession of or consuming a prohibited substance is considered to be in possession of that substance.

Delivery: a transfer, or attempted transfer, of possession or control to another person whether or not the substance or item is in that person's immediate presence. Delivery includes, but is not limited to any gift, exchange, sale or other transfer with or without payment or other consideration.

Look-alike: any substance or item which is not, but reasonably appears to be, or is represented to be a Prohibited Substance. Examples include, but are not limited to (a) a green leafy plant material, which is not, but is claimed, believed or intended to appear to be marijuana; and (b) a white powdered substance which is not, but is claimed, believed or intended to appear to be a toxic chemical or biological agent.

Extracurricular Activities: include all activities sponsored or approved by District 207 or any of its schools other than academic classes, such as but not limited to athletics, band, plays, choral groups and clubs.

Criminal Activity: any activity that would constitute a violation of any state or federal criminal law, other than minor traffic offenses. However, proof beyond a reasonable doubt is not required.

Gang and/or Secret Organization Affiliation: any ongoing organization, association or group of three (3) or more persons whether formal or informal, having as one of its primary activities the commission of one or more criminal acts or acts in violation of school rules, that may have an identifiable name or identifying sign or symbol, and whose members individually or collectively engage in or have engaged in a pattern of criminal activity or activity relating to the violation of school rules.

Review Board: the Assistant Principal for Students in addition to the Athletic Director or Fine Arts Chairperson as well as a guidance counselor, coach, club/activities sponsor, social worker, dean or other school personnel that are appropriate as determined solely by the Principal shall constitute the school Review Board.

APPLICATION OF CODE

This Code of Conduct is in effect 24 hours a day, every day of the calendar year. It applies to incidents of Prohibited Conduct on or off school property, whether in season or not, and whether school is in session or not. Violations of the code accumulate throughout a student's high school career.

Violations of the Code are limited to incidents of Prohibited Conduct verified by District 207 staff or law enforcement agencies or by an admission of guilt. Direct reports from law enforcement agencies of Prohibited Conduct will be investigated. Arrest for criminal activity or reasonable evidence of criminal activity, may result in imposition of consequences under this Code. Anonymous or secondhand reports of possible Prohibited Conduct will not be investigated absent substantive confirming information. A Code violation is verified if, by the information available, it appears more likely than not a Code violation has occurred.

The consequences of Prohibited Conduct in violation of this Code are separate from and in addition to those assigned for violating school rules, school district policies and the law. This Code in no way limits the authority of the administration, coaches, club sponsors or the Board of Education to impose other or additional consequences in accord with school rules and district policies.

Any student who represents himself/herself to District 207 staff, as having a substance abuse problem will have full practice and participation privileges as long as the following conditions are deemed satisfied by the District 207 administration:

1. admission of the abuse is not initiated by the student as a means of escaping disciplinary action;
2. the student and/or parents(s) receive counseling;
3. the student and/or parent(s) provide proof of their successful completion of such counseling; and
4. the student does not violate any of the Code rules after he/she admits to abuse.

PROCEDURES

The following procedure will take place in enforcing the Extracurricular Code:

1. Reasonably credible reports of violations of this Code will be investigated by the Principal or designee at the school at which the student is enrolled. The investigation will include an interview of the student and parental notification.
2. After completion of the investigation, the Principal will consult with the Executive Committee for a determination as to whether a violation of the Code has occurred.
3. At the direction of the Principal after the Executive Committee's determination, the Assistant Principal for Students will schedule a Review Board hearing within three (3) school days of the completion of the investigation of the misconduct. Parents or guardians, student and other appropriate school staff will be invited to participate in the hearing. (South has different practice)
4. The Review Board will consider all the relevant information, including the student's cooperation, and apply consequences appropriate to the circumstances, including prohibiting the student's participation in practices and rehearsals.
5. If new information becomes available, parents may request a second Review Board hearing from the Assistant Principal for Students.
6. The student or his/her parent or guardian may request a review of the Review Board's decision by the Principal. This request must be made in writing to the Principal within five (5) business days of the receipt of the Review Board's decision and must articulate the reason(s) that a review should be granted.
7. The Principal will determine if the consequences should be upheld, reversed or modified. An appeal of the Principal's decision must be filed with the Superintendent within five (5) business days of the delivery or attempted delivery of the Principal's decision.

CONSEQUENCES

A principle purpose of this code is to deter Prohibited Conduct; accordingly the Assistant Principal for Students, the Review Board, the Principal, the administrative staff and others involved in effecting this code shall do so in a manner which takes into consideration the rehabilitation of students who have engaged in Prohibited Conduct. Among other steps, consequences may be deferred or abated for students who: 1.) Enroll in a school-approved intervention program; 2.) Commit to perform community service, such as speaking to student groups about their experience, or other services approved by the Review Board; and 3.) Otherwise redress their conduct and undertake steps to avoid future Prohibited Conduct.

Subject to the foregoing, students who are found to have violated this code of conduct will be suspended from participation in extracurricular activities in accordance with the guidelines set forth below. The

Assistant Principal for Students and the Principal upon review shall have the discretion to determine the severity of the consequences, based on the circumstances surrounding the misconduct. A student not involved in extracurricular activities at the time of the violation will be assigned a consequence beginning upon his/her next involvement in an extracurricular activity.

Any assigned consequences for the Code violation are in effect during any request for a review. A student suspended from school shall be ineligible to attend or participate in any extracurricular activities during the period of suspension unless the Assistant Principal for Students determines otherwise.

PENALTIES FOR PROHIBITED CONDUCT

1st Offense: The student will be suspended from participation in the extracurricular activity. The Review Board shall have discretion to determine the date(s), duration, and nature of all suspensions. Generally, the student may be prohibited from participating in up to 40% of the extracurricular activity. If the current extracurricular activity ends before the suspension is completed, the suspension will be completed or served in the first extracurricular activity in which the student next participates. The student may choose to participate in a District 207 approved intervention program, for example substance abuse, to reduce the suspension to half the assigned consequence. Failure to successfully complete the program will result in the student serving the full and original consequence.

2nd Offense: A second violation of the code will result in suspension from all extracurricular activities for up to one calendar year from the date of the Review Board's decision.

3rd Offense: The student will be excluded from all extracurricular activities for the remainder of his/her high school career in Maine Township District 207.

An account including investigation, details and findings for a student's 2nd or 3rd offense under this Code, along with a description of the consequences imposed, shall be provided to the Board of Education by the Review Board.

ACTIVITIES COVERED BY THE EXTRACURRICULAR CODE OF CONDUCT

All participants in school-related sports, student productions, student activities and qualifying clubs and student organizations are covered by this Code.
